## PROFESSIONAL SUMMARY

---

Full Stack Software Engineer with 3+ years of experience developing internal and customer-facing web applications using TypeScript, React, and Node.js. Experienced in designing scalable REST APIs, contributing to technical architecture decisions, collaborating with cross-functional stakeholders, and maintaining high standards for code quality, performance, and maintainability in agile environments.

## EDUCATION

---

**MCA in Computer Applications**, Marwadi University (GTU)  
CGPA: 8.39 / 10

Jan 2021 - Jan 2023  
Rajkot, India

## SKILLS

---

<b>Frontend</b>	React.js, Next.js, TypeScript, Redux
<b>Backend</b>	Node.js, Express.js, Nest.js, REST APIs
<b>DevOps &amp; CI/CD</b>	Git, GitHub, GitHub Actions, Docker, CI/CD pipelines
<b>Testing &amp; Quality</b>	Unit & Integration Testing (Jest), Code Reviews
<b>Cloud &amp; Integrations</b>	AWS, OAuth 2.0, Stripe, SaaS API Integrations
<b>Ways of Working</b>	Agile Methodologies, Backlog Grooming, Estimation, Sprint Planning
<b>Soft Skills</b>	Problem Solving, Team Collaboration, Mentoring, Communication

## EXPERIENCE

---

**Junior Software Engineer**  
Technostacks Infotech Pvt Ltd

Jun 2023 - Present  
Ahmedabad, India

- Designed and developed full-stack internal and client-facing applications using TypeScript, React, and Node.js, contributing to scalable and maintainable system design.
- Implemented and optimized RESTful APIs (with exposure to GraphQL-style query patterns) to integrate with internal systems, supporting 10,000+ daily active users with high availability.
- Improved application performance by 40% through API optimization, caching strategies, database query tuning, and basic observability using logging and performance monitoring.
- Mentored junior engineers through code reviews, technical guidance, and knowledge sharing, promoting collaboration and adherence to engineering standards.
- Collaborated with product managers, designers, and QA teams on backlog grooming, effort estimation, sprint planning, and timely feature delivery in an agile environment.
- Leveraged modern development tools to increase development velocity and maintain high-quality, maintainable codebases.
- Contributed to technical architecture discussions, CI/CD improvements using GitHub workflows, and enforcement of code quality standards through reviews and automated checks.

**Software Engineer Trainee**  
Technostacks Infotech Pvt Ltd

Jan 2023 - Jun 2023  
Ahmedabad, India

- Completed a structured training program focused on JavaScript, React.js, Node.js, MongoDB, and MySQL.
- Developed 5+ full-stack projects demonstrating strong understanding of frontend-backend integration.
- Contributed to 3 production-level applications, gaining hands-on experience in real-world software development workflows.

## Customer Support Engineer

Perfect Infosys

Feb 2019 - Dec 2020

*Rajkot, India*

- Diagnosed and resolved 500+ software issues for accounting applications, maintaining a 95% customer satisfaction rating.
- Analyzed recurring issues and generated reports that reduced repeat problems by 25%.
- Conducted technical training sessions for 20+ users, improving adoption and product usability.
