## EXPERIENCE

### Technostacks Infotech, Ahmedabad — *Jr. Software engineer*

June 2023 - Present

As a mern stack developer, I improved UI, optimized code with TypeScript, Next.js, Nest.js, PostgreSQL, and TypeORM, and collaborated with teams to ensure smooth development.

### Technostacks Infotech, Ahmedabad — *Software trainee*

January 2023 - June 2023

As a software trainee, I learned JavaScript, React.js, Node.js, MongoDB, and MySQL, applying them in a full-stack internship project.

### Perfect Infosys, Rajkot — *Customer Support Engineer*

February 2019 - December2020

Customer Support Engineer at Miracle Accounting Software: diagnosed software issues, managed customer complaints, participated in training, and generated reports for issue tracking.

## PROJECTS

### Online services and resources platform

- Developed and deployed an online platform tailored for users residing outside India, offering a range of services and resources.
- Led the design and implementation of a responsive and user-friendly frontend using HTML, CSS, and React.js.
- Integrated RESTful APIs to facilitate seamless data interaction and dynamic content delivery.
- Ensured cross-browser compatibility and optimized the platform for performance and usability.

### Driver Management Application

- Developed a robust backend API for a driver management application, enabling corporate clients to manage drivers effectively.
- Facilitated driver access to a route-searching mobile application by implementing efficient API endpoints.
- Leveraged TypeScript, Node.js, TypeORM, and PostgreSQL to design and manage scalable backend infrastructure.
- Contributed to the frontend design and development using Angular, ensuring a cohesive and user-friendly experience.Collaborated with cross-functional teams.

## EDUCATION

Marwadi University (GTU), Rajkot
**Master of Computer Application**
March 2023
8.39 CPI

## TECHNICAL SKILLS

JavaScript, Node.js, TypeScript, React.js, Next.js, Nest.js, Express.js, MySQL, PostgreSQL, MongoDB, TypeORM, Mongoose, Docker, HTML & CSS, Shadcn, Tanstack, Stripe

## DEVELOPMENT TOOLS

Postman, Github, Visual Studio Code (VS Code), npm, Yarn, Vite,  pgAdmin (PostgreSQL) , MongoDB Compass, DBeaver , TypeORM CLI (Database Management), ArcGIS Online (for geospatial development),

## SOFT SKILLS

Problem Solving, Decision Making, Teamwork, Communication, Adaptability, Positivity, Time Management, Responsibility, Conflict Management

## CERTIFICATES

Udemy C Programming for Beginners - Masters the C language.

Technostacks Infotech Project Completion Certificate.

## Attorney Journal Platform

- Designed and developed the frontend for a platform enabling users to access, search, and download case documentation.
- Implemented advanced search capabilities to locate specific document sections efficiently.
- Enhanced user experience by ensuring intuitive navigation and a seamless interface design.
- Focused on optimizing performance and usability to handle large datasets effectively.

## Land Plotting and Mapping Application

- Designed and implemented a web application for visualizing land parcels on interactive maps using ArcGIS Online.
- Integrated ArcGIS Online REST API to fetch, manage, and display geospatial data efficiently.
- Developed backend services in Node.js to handle geospatial data and interact with ArcGIS feature layers.
- Built a responsive frontend using React.js, enabling users to visualize and interact with land parcel data on maps.
- Optimized spatial data rendering for enhanced performance and user experience.
